

Amr Khaled Salah

Front-End Web Developer & Business Information Systems Student

Future City, Cairo, Egypt | DOB: 01/04/2006 | +201289042555 | amrkhaled12338@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Driven Front-End Web Developer and Business Information Systems student with a strong focus on building responsive, modern web applications. Passionate about crafting sleek, user-centric interfaces that ensure high performance and immediate client value. Leverages a robust modern tech stack to translate complex business requirements into scalable, elegant digital experiences.

TECHNICAL SKILLS

Core Stack:	React, Next.js, TypeScript, JavaScript
Styling & UI:	Tailwind CSS, shadcn/ui, Framer Motion, GSAP
Tools & Integration:	RESTful APIs, Git/GitHub, Responsive Web Design, Dynamic Page Rendering

PROJECTS & EXPERIENCE

Front-End Developer | Rentcars

[View Live Project](#) →

- Engineered a modern, visually appealing landing page for a car rental business to streamline the user booking process and effectively highlight top rental deals.
- Implemented smooth, engaging user interactions and interface animations utilizing Framer Motion, increasing visitor retention across all devices.
- Built a fully responsive and elegant UI using Next.js, TypeScript, Tailwind CSS, and shadcn/ui, ensuring optimal performance, simplicity, and fast load times.

Front-End Developer | StreamVibe

[View Live Project](#) →

- Architected a dynamic web application integrating external REST APIs to deliver real-time cinematic data and an exceptional on-demand streaming experience.
- Optimized the platform using Next.js and TypeScript to guarantee seamless dynamic page rendering and highly efficient data fetching.
- Designed a modern, device-agnostic interface leveraging Tailwind CSS and shadcn/ui to maximize visual appeal and maintain a consistent user experience.

Front-End Developer | MegaMart

[View Live Project](#) →

- Developed a sleek, scalable e-commerce platform that facilitates a seamless shopping journey across a diverse and extensive product catalog.
- Leveraged Next.js and TypeScript for dynamic page rendering, significantly improving search engine visibility, scalability, and overall user load times.
- Constructed a highly responsive and intuitive shopping interface utilizing Tailwind CSS and shadcn/ui to ensure accessibility and aesthetic precision.

Front-End Developer | Personal Developer Portfolio

[View Live Project](#) →

- Designed and deployed a comprehensive portfolio site to effectively showcase technical skills, professional experience, and capabilities.
- Crafted a sleek, user-friendly interface to highlight modern web design principles and personal branding.
- Programmed the application using Next.js, TypeScript, Tailwind CSS, and shadcn/ui, establishing a fast, accessible, and maintainable codebase.

EDUCATION

Helwan University — Cairo, Egypt

Bachelor of Science in Business Information Systems

Expected Graduation: 2028

CERTIFICATIONS

Web Development Bootcamp | Sponsored by Sprints & Microsoft (2025)

[View Certificate](#) →

Completed an intensive, industry-aligned training program focusing on modern web development frameworks, responsive design, and enterprise-level software engineering principles.

Transform Your Business with Microsoft AI | Microsoft (2025)

[View Certificate](#) →

Gained practical expertise in leveraging artificial intelligence tools and strategies to optimize workflows, enhance business processes, and drive technological innovation.

CS50's Introduction to Computer Science | Harvard University (2024)

[View Certificate](#) →

Mastered foundational computer science concepts, establishing a robust understanding of algorithmic thinking, data structures, and complex computational problem-solving.

The Web Development Challenger Track | Udacity (2022)

[View Certificate](#) →

Acquired core front-end development skills, building a strong functional foundation in semantic web structure, responsive styling, and interactive web elements.
